The price of every rug in this store is marked in plain figures. That is the price to every one-and no one can buy it for less.

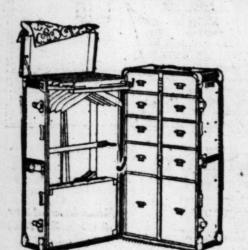

We probably lose a few sales by not "cutting" prices for some folks. But if we did that we would be forced to charge other people enough to make up the difference -or else mark all our rugs at prices considerably above their real worth.

We won't do either: For a reputation of 41 years' standing is too valuable to risk for the sake of a few extra sales. Hence people have learned that they can buy rugs with Confidence here, whether they know rug values or not.

BY FRANK BUTZOW. (Picture on back page.)

The warring politicians rested their artillery yesterday while the election n reviewed Saturday's work of the precinct judges and clerks and erased 218,217 names from the poll

But erasures thus far have failed to create any new scandal, election of-neials declaring that a large propore of persons who have changed address since the previous registration and consequently were on more than one set of precinct books.

What the percentage of the whole these removals will be has not been sgured out and all the political camps are waiting for authentic tidings be fore letting loose another bombare ment at each other.

As the lists now stand there are 1,066,223 registered voters in Chicago last Tuesday's registration of 224,338 persons really putting only 6,121 more Guire, chairman of the election comon, said the gain may be entirely wiped out when the board begins of a wealthy Chicago real estate dealto hold hearings on additional sus- er, was arrested in Detroit yesterday

TWO EVANSTON HOMES ROBBED; LOOT IS \$5,500

Two Evanston homes were robbed early yesterday by a youth who escaped with \$5,500 worth of jewelry, silverware and clothing. One was the home of Mrs. William B. Dixon, 418 Greenleaf avenue, wife of the general passenger agent of the Chicago, Mil-waukee & St. Paul railroad; the other the home of Artemus D. Watson, 622 herman square, a stationer.

Mrs. Dixon, returning home with her daughter, Jeanne, saw the burglar ransacking a room in her home. He saw her at the same time and fled as she called the police. Mrs. Dixon, checking her belongings, said there were some \$1,500 worth of them miss-

CONCESSION MENACE TO U. S.

The map above shows the extreme importance to the United States of the two concessions which Japanese colonizers are reported to have obtained from Mexico. Dispatches from the coast said a Japanese symdicate had obtained 2,000,000 acres, almost surrounding Magdalena bay, the best natural harbor and possible naval base in west Mexico; and 1,000,000 acres near Eensenada, only 150 miles from the American border. Either port developed into a naval base would provide means of cutting the United States' communications with the Panama canal,

How make correctly Firstly

Be sure you use India Tea, or a blend containing India Tea.

Tecondly

Use an earthenware teapot, and put into it one good teaspoonful of India Tea for each cup of tea required.

Hirdly

Be sure you pour the water into the teapot the moment it boils. Only fresh boiling water can bring out the true flavour of the tea. Hot water is no use. Water that has been boiling for some time does not give the best results This is important if you want a really good cup of tea.

Fourthly

Allow the tea to stand 5 minutes to infuse. Put a little cream or milk into each cup before pouring out the tea. It greatly improves the flavour. Then add sugar to taste.

MARSHALL FIELD & COMPANY THE STORE FOR MEN

Off with the Old, On with the New

OLLEGE men home for the Easter recess, prep-school and highschool students, and young men in general whose wardrobes need to be brightened up a bit and renewed for spring-we are ready to outfit you from top to toe with just the clothes and accessories that you know are exactly right.

We suggest that you bring in your heavy winter ulsters and fur coats for summer storage in our Fur Storage Vaults.

The Tube Topcoat Is Sure to Make the Team

It's a little bit longer, and it's that little bit with other refinements of design that makes the difference between the ordinary topcoat and this one of our own development.

In Bright, Light Woolens

Light grays and tans are the outstanding colors, but you'll find plenty of heathers and other pleasant Scotch mixtures, as well as blues and Oxford grays.

The Three-Button Boal Suit Holds the Sartorial Championship

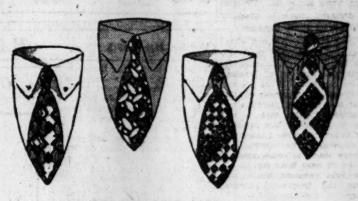

It's the suit shown at the left in the illustration above. College men styled it; we worked out their ideas. In fine, light spring grays, tans, and THIRD FLOOR

Candidate for Senior Honors Our Savile Double-Breaster

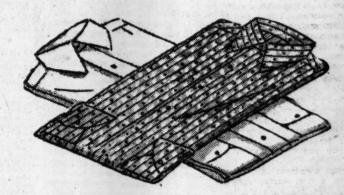

It's a snatch more dignified and formal than the sack coat. Very popular down at Palm Beach, in silver flannels the past season. THIRD FLOOR

Color's the Word in Spring Accessories

The Loud Note in Ties

Every color you can think of, worked up in bizarre patterns that are just as pleasing as they are unusual. There's a wide assortment in foulards, crepes, and other fine neckwear fabrics. Plenty of stripes, too, in vivid combinations, in reps and mogadores.

The Small Figure in Shirts

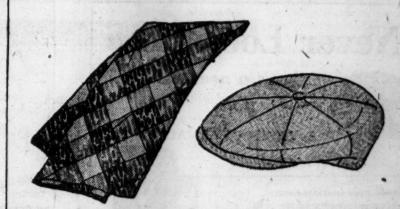

But whether plain or figured, the collar-attached is still the leading shirt fraternity. Stripes are doing well in the East, small figured designs are strong here; and there's a big call for the white Oxford in both sections. We have them all.

Broad-Toed Shoes, Fancy Hose

The wide-toed shoes, in the new light tans, with their stitching, pinking, and perforations, call for socks that belong in the band. Checks, diamonds, stripes, figures, in noticeable colors and blends.

SHOES, SECOND FLOOR - HOSE, FIRST FLOOR

Topcoat Mufflers in Colors

But the colors aren't muffled by any means. They run the new ties a close second for brilliancy and oddness of design. The Caps are in the small shape, of light-colored imported woolens, very finely tailored.

New Pull-Overs and Golf Hose

Here again color has the inside track, but designs are more regular. Dozens of plaid and check versions, with many small, neat figures, in both sweaters and hose. Plenty of plain colors and weaves. SWEATERS, FOURTH FLOOR GOLF HOSE, FIRST FLOOR

It is supervised and directed by CHARLIE WHITE—the one man in Chicago who is equipped through 21 years of personal experience to remove or increase weight, and to give those lines of beauty that every woman desires. He recently retired from a career in which he had gained worldwide renown to devote all his time to the business of making women beautiful. Hundreds of women will testify to his amazing

Chief Collins of the police department has repeatedly advocated the abolishment of loop parking in daylight hours as the one remaining remedy for rush hour congestion in streets where traffic aids have already been installed. Members of council committees interested in relieving the loop of their eyebrows?—Dubuque.

It was the custom to put a barrel of abolishment of private car storage in land that can be used for moving traffic.

"Parking is the means to petty graft and must be considered in any new plans for the relief of Chicago traffic conditions." I know of dozens of business men who find it easy to pay a few dollars a week for protection in storing their cars in loop alleys and in loop streets. The boulevards are no better when it comes to overtime storage. The system is unjust in every direction. It allows a favored few to park their cars at public expense and hinders the movement of traffic.

Fifteen balkline billiard stars have filled their entries for the state tournaments which opens tonight at Bensinger's 73 West Monroe street room at 8 o'clock. The following players have entered:

"As long as care are allowed to stand in congested streets during business hours at all, it is practically impossible to enforce traffic laws in a just manner. The majority of car owners in Chicago park their cars outside of the loop when doing business in the downtown district. The loop is now filled with favored cars after hours. Abolition of parking will hit lawbreskers larder than any one else and it should be accomplished at once."

Go in Summer

To be cool, to get away from rain and insects, to enjoy the sports of millionaires at prices anyone can pay. You have always wanted to see this different place. Plan that trip this summer.

YES, Southern California is every-body's playground—unique and delightful throughout the entire year.

No -not a winter resort only. Let the U.S. Weather Bureau (unprejudiced) speak for the past fifty Junes, Julys, Augusts and Septembers—average mean temperatures in Los Angeles for fifty years for these summer months, respectively, 66-70-71 and 69 degrees! - grand average for

Light overcoats and wraps during the evenings. But sunshine every day. And you probably won't see a drop of rain in all four months. Yes, plan your fun and have it on the day planned.

And do any of the hundred things, not simply one or two-for this isn't seashore only, not merely a "mountain resort," not just a golfer's paradise. It deals in a galaxy of summer sports and recreations—your type of fun no matter what it is wholesale. Its only specialties are climate and surroundings which en-able you to know your hobby at its best.

The proceeds of this issue of Notes will be used to refund \$3,000,000 Notes maturing March 31, 1926.

ECONOMIC PROGRESS: During the last few years Yugo-Slavia has made great progress in improving its financial and economic situation. For the fiscal year 1924-1925 the estimates of receipts and expenditures were fixed at Dinars 10,405,000,000 whilst the actual budgetary expenditures amounted to Dinars 10,579,000,000 and the receipts attained the figure of Dinars 11,190,000,000, leaving a surplus of receipts over expenditures of 611,000,000 Dinars. Exports for the entire year 1925 amounted to Dinars 8,904,509,328. Figures for Imports for the entire year 1925 are not yet known, but judging from the data at present available it is expected that Exports and Imports for the last year will be balanced.

Exports for 1925 in Dinars show a decrease as compared with those for 1924 but their real value when expressed in Dollars shows an increase which is due to the improvement of the Dinar. The Dollar figures compare as follows: \$124,000,000 for 1924 and \$151,470,000 for

GOVERNMENT REVENUES: The net receipts for the last three years from Customs and Monopolies and gross receipts of State Railroads, which constitute the most important revenues of the Government, compare as follows in Dinars:

WHEAT FOR MAY PROVES ERRATIC

BY CHARLES MICHAELS. May wheat in Chicago is congested. It is expected to fluctuate sharply beuse of absence of pressure from other than short sellers at present, with a arge short interest outstanding. It is said exporters and millers have a fair sized holding, while nobody but a few hedgers is in a position to make deliv-

A most important factor in the foreign theat situation is the practical cleaning ip of unsold cargoes of wheat afloat for ropean importing countries with an ace of pressure of cash wheat from exporting countries.

The continent has bought cargoes freely and there is less wheat headed for the Inited Kingdom than for some months. With a lessened selling pressure and an mproved demand, Liverpool values have advanced, and May wheat in that market Saturday was \$1.62 at the close, a et gain of 3%c for the week, and 1%c 3.00 higher than the Chicago May.

She had taken the small corpse to bed with her and cried over it all night. Since then she had never cried over anything. When she felt she longed to, no tears would come, only that needlelike stabbling in her eyes and the constricted

As this memory of her father came back to her she shivered again. "I hope that he is suffering very much somewhere," she said softly, com forted a little by hearing her ardent wish uttered in words.

Celia would certainly not have made a good Christian. She was dreadfully burt that Hilary should have thought her ignoble and ungrateful enough, to demand such a sacrifice of both his dignity and probity

It was only that day that she had learned how most modern American divorces are obtained. She had always thought that in a marriage such as hers and Hilary's, divorce would be a simple matter, the dissolving by mutual

"I'd better give her a hint," she thought and then spoke: "As for getting a divorce on the plea of never having lived together as man and wife—that's the most odious of all, my dear. I can't enter into details, but you might read it up if you're interested in the subject-a sensitive, refined

woman would much rather go on being married only in name than submit to such an ordeal—and have the world know about it into the bargain." Here is a question which is exceedingly pertinent and my present word must be regarded as a postscript to that preliminary review of the spring modes which I made yesterday t's all about the culotte or divided skirt which was featured by so many of the famous Parisian designers and which appears in both daytime and evening models.
